01 About SowaanERP**02** FBR Digital Invoicing**03** Modules**04** Self-onboarding**05** Plans & pricing**06** Get started**01 One system to run your whole business**

SowaanERP Cloud is a complete business management system that runs in the cloud. Sales, purchasing, inventory, accounting, manufacturing, projects, HR & payroll and customer support all work together in one place, so every transaction updates your books, stock and reports automatically.

It is built for businesses in Pakistan: FBR Digital Invoicing is built in, so your sales tax invoices are shared with FBR as you issue them. You can set the system up yourself in minutes with a guided wizard, and try it free for 15 days.

**Fully integrated**

One system for every department, with no double entry.

**FBR ready**

FBR Digital Invoicing is built in, so every sales tax invoice goes to FBR automatically.

**Self-onboarding**

A guided wizard gets you working the same day.

**100% cloud**

Work from any browser. No servers to buy or maintain.

**Affordable**

Plans from PKR 1,400 a month (about \$5).

**Free trial**

15 days free, no credit card required.

Integrated with FBR Digital Invoicing

Every sales tax invoice is shared with FBR in real time, straight from SowaanERP

02

FBR Digital Invoicing, built in

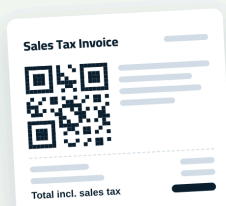

The Federal Board of Revenue (FBR) requires sales-tax-registered businesses to issue their invoices electronically and share each one with FBR in real time through its Digital Invoicing system.

SowaanERP handles this for you. Each invoice you issue is checked, sent to FBR and returned with an FBR invoice number and QR code, ready to print or share with your customer.

SOWAANERP

Your invoices reach FBR in **real time**

Integrated with FBR Digital Invoicing: every invoice gets an FBR number and QR code

**Validated**

Shared with FBR
automatically

From **PKR 1,400** / month
Try free for 15 days - No credit card

What FBR requires

Real-time invoice sharing

Every sales tax invoice is sent to FBR's Digital Invoicing system when it is issued, not filed later.

On every printed invoice

FBR invoice number and QR code

FBR validates the invoice and returns a unique invoice number. The printed invoice shows it with a QR code and the FBR Digital Invoicing logo.

Validated by FBR **Real time**

FBR checks each invoice as it arrives. If something is missing, SowaanERP shows FBR's message so you can correct it straight away.

Phased deadlines **FBR notices**

FBR has introduced the requirement in phases for different categories of taxpayers. Check FBR's latest notification for your deadline.

No add-ons, no manual uploads

Invoices go from SowaanERP to FBR automatically. There is no separate software to buy or install.

02

How SowaanERP keeps you compliant

Compliance runs automatically in the background every time you issue an invoice.

What SowaanERP does for you

- ✓ Sends every sales tax invoice to FBR in real time
- ✓ Checks required details before sending: NTN/CNIC, HS code, sale type, tax rate and values
- ✓ Receives and saves the FBR invoice number on each invoice
- ✓ Prints the FBR QR code and Digital Invoicing logo on the invoice
- ✓ Supports sales invoices and debit notes
- ✓ Shows FBR's response or error message on each invoice
- ✓ Lets you test in FBR's sandbox before going live

Connect in 3 steps

- 1 Log in to FBR's IRIS portal and get your Digital Invoicing API token.
- 2 Enter the token and your NTN/STRN details in SowaanERP, then test your invoices in FBR's sandbox.
- 3 Once the tests pass, switch to production. Every invoice now goes to FBR automatically.

FBR Digital Invoicing: common questions

Who must comply?

Sales-tax-registered businesses, in the phases FBR has notified. Check FBR's latest notification for the date that applies to you.

Do I need extra software for FBR?

No. FBR Digital Invoicing is built into SowaanERP, so there is no separate add-on to buy or install.

What details does each invoice need?

Buyer and seller registration details, HS codes, sale type, tax rates and values. SowaanERP fills these from your customer and item records.

What do I need to connect?

Access to FBR's IRIS portal to get your Digital Invoicing token, plus your NTN and STRN.

03

Every module your business needs

All modules share one database, so information flows between departments automatically.

Accounting

Chart of accounts, journal entries, receivables and payables, bank reconciliation, sales tax and financial statements.

Sales & CRM

Leads, quotations, sales orders, deliveries and FBR-integrated sales tax invoices.

Purchasing

Material requests, supplier quotations, purchase orders, receipts and supplier invoices.

Inventory

Multiple warehouses, stock transfers, batch and serial numbers, reorder levels and stock valuation.

Manufacturing

Bills of materials, work orders, production planning and job cards.

Project Management

Projects, tasks and timesheets, with project costing and billing.

HR & Payroll

Employee records, attendance, leave, salary structures and monthly payroll.

Support

Customer issues and tickets, service level agreements and warranty claims.

Reports & Dashboards

Real-time reports, dashboards and analytics across every module.

FBR Digital Invoicing in every sale

Every sales tax invoice and debit note is prepared in FBR's format and shared with FBR automatically.

04

Set up your system yourself, in minutes

A step-by-step wizard walks you through everything you need to start working.

1

Sign up

Visit www.sowaanerp.com and click “Try, it's free”. No credit card needed.

2

Company details

Company name, logo, address, NTN and STRN.

3

Accounting setup

Currency (PKR), fiscal year and a ready-made chart of accounts.

4

Sales tax & FBR

Sales tax templates and your FBR Digital Invoicing connection.

5

Items & contacts

Add or import your products (with HS codes), customers and suppliers.

6

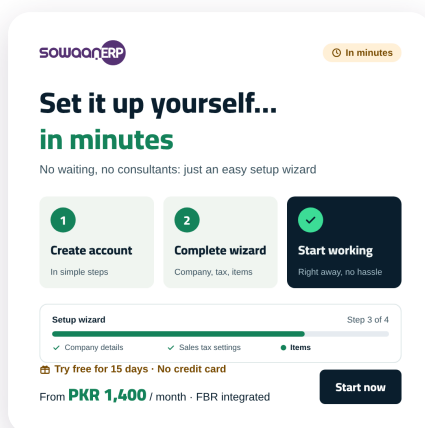

Invite your team

Create users and give each person the right permissions.

You're live

Issue your first FBR-integrated invoice the same day.

Why customers like it

- ✓ No consultants or long projects needed to get started
- ✓ No installation and no servers: everything runs in the cloud
- ✓ Change your setup at any time as your business grows
- ✓ Our team is available if you need help along the way

05

Choose the plan that fits your business

All plans include the full ERP, FBR Digital Invoicing and the self-onboarding wizard.

10 or more users?

For companies with 10 or more users, we recommend a dedicated server. Contact our sales team for a dedicated server plan.

Every plan includes

- ✓ All modules: accounting, sales, purchasing, inventory, manufacturing, projects, HR & payroll, support
- ✓ Self-onboarding wizard
- ✓ 15-day free trial, no credit card required
- ✓ FBR Digital Invoicing integration
- ✓ Cloud hosting: no servers to manage

Which plan is right for me?

1 user, a few invoices a month	PKR 1,400 – 2,800
1 user, no invoice limit	PKR 7,000
2 users	PKR 14,000
3 – 4 users	PKR 21,000 – 28,000
5 – 8 users	PKR 42,000 – 56,000
10 users or more	Dedicated server

Based on the recommended users and invoices for each plan. Prices per month, approximate.

What the terms mean

Compute hours / day

Server processing time available to your system each day.

Database

Storage for your ERP records: invoices, items, entries and more.

Disk

Storage for files and attachments.

Offsite backups

Copies of your data kept in a separate location.

Database access

Direct access to your database, for example for external reporting tools.

Advanced monitoring

Detailed monitoring of your system's performance.
